The farm

Mas Flaquer is a beautiful 8.5 hectare regenerative estate, located in the heart of one of the most beautiful and unknown rural areas of the Alt Empordà called Els Aspres de l'Albera, where you will find wild aromatic plants, olive trees, bee hives and an organically managed

vegetable garden, an endless greenhouse, almond and fig trees, farm animals and a romantic shaded garden with the oldest listed plane tree in Catalonia.

Cultivate the fragrance

The buildings

An 18th century 'masia' with modern design interiors and great comfort. The main house, two flats and a romantic wild cabin in the middle of the olive trees. It can accommodate a wide range of visitors, from couples to families of 12 to 16 people. We also have large communal areas where you can hold company events, presentations, team building sessions, creative retreats or simply relax, read, refresh and enjoy nature and its aromas.

Our library, for example, treasures some of the best books ever published on the sense of smell, nature writing, plants, perfumes, gardening, gastronomy, landscaping, regenerative agriculture and a personal selection of poetry and art books. A perfect place for inspiration where you can retreat and expand your knowledge of the many things you can experience at Mas Flaquer.

In addition to the accommodation, which is an experience in itself, there are many activities that can be carried out at Mas Flaquer. Walks and olfactory experiences, natural perfumery workshops, guided tours of regenerative agriculture or a visit to the beehives.

Surroundings

Mas Flaquer is 30 minutes away from the most beautiful and wild beaches of the Costa Brava.

Near the estate, you will find a beautiful rural village (Cantallops) with restaurants, a small grocery shop with local products and two wine cellars. There are also interesting nature walks through spontaneous ponds, castles and hermitages, ancient farmhouses and megalithic remains.
